Hi Earl,

Thanks for your message. I think you will need to search for records from employees in the OPP IO, PRD, HED, and FEAD.

For the OPP-IO, I think it would be Anna Lowit, Rick Keigwin, Edward Messina, Wynne Miller. But you should probably check with them.

For PRD: Elissa Reaves, Yu-Ting Guilaran, Charles Smith, Kelly Sherman, Avivah Jakob, Tracy Perry, Carolyn Schroeder, Cathryn Britton, Dana Friedman, Kevin Costello, Linda Arrington, Reuben Baris, Amy Blankinship, Neil Anderson, Marianne Mannix, Steven Snyderman, Carolyn Smith, Garland Waleko, Linsey Walsh, Samantha Thomas, Khue Nguyen, Melanie Biscoe, Jill Bloom [I'm erring on being overly inclusive, just to be safe]

For HED: Ask them. Cecelia Tan should definitely be included.

For FEAD: Ask them.

I am copying the PRD managers, for their awareness, and to chime in with any updates to my list.

Thanks,

Kelly Sherman

Subject: EPA-HQ-2019-008930 CBD FOIA request re FQPA1 safety factor for pyrethroids or any Pharmacokinetic ("PBPK" or "PK") model developed for pyrethroids,

Kelly,

We have a recent FOIA request from The Center of Biological Diversity (CBD) for the following information:

From January 1, 2017 to the date EPA conducts this search, the records of communications mentioning or referencing the FQPA safety factor for pyrethroids or any Pharmacokinetic ("PBPK" or "PK") model developed for pyrethroids, including but not limited to, any mention of the FIFRA Scientific Advisory Panel or the External Peer Review prepared by Versar, Inc. to evaluate the aforementioned safety factor and model for pyrethroids between:

1. Employees of EPA's Office of Pesticide Programs ("OPP") and/or;
2. EPA employees Alexandra Dapolito Dunn, Nancy B. Beck, Charlotte Bertrand, Erik Baptist, Lek Kadeli, Arnold Layne, Andrew Wheeler, Henry Darwin, Ryan Jackson, Michael Molina, Helena Wooden-Aguilar, David Fischer, Kevin DeBell, Scott Pruitt; and/or
3. Employees of the Council for the Advancement of Pyrethroid Human Risk Assessment ("CAPHRA"); AMVAC; BASF; Bayer; Cheminova; DuPont; FMC Corporation; S.C. Johnson & Son, Inc; Sumitomo Chemical Co., Ltd; Syngenta; and Valent BioSciences Corporation.

Who would be able to provide the OPP staff that could have records, so we can have the IT Staff conduct an E-discovery search? If you can only provide PRD's staff, that would be good. Is there another Division besides HED that I would need to reach out to?

Thanks
